

Press Release: For Immediate release

Date: May 14, 2010

California Coach Company, LLC is proud to announce that they have become the exclusive dealer for LifeStyle LS-II and LS-III Luxury Motor Coach. LifeStyle LS-II, and LS-III is a division of COACHWORKS, LLC the parent company of Texas Custom Coach a Texas company that has been building custom motor coaches since 1982. For 28 years Texas Custom Coach has been an innovator in the conversion of Bus chassis's for Luxury Coach, Entertainment, Executive, and Military applications. COACHWORKS, LLC has invested in the transformation of Texas Custom Coach from a used coach, and new Eagle bus converter to building outstanding custom conversions that exceed every customer's expectation utilizing new Prevost XL-II, and H3 shells. Adding to their experience in design, innovation, and flexibility with new coach conversions, Texas Custom Coach also has a division that remodels 75 to 100 coaches per year.

California Coach Company, LLC is very excited and we feel privileged to offer the LifeStyle Prevost Luxury Motor Coach to our customers. Currently many converters are incorporating increasingly sophisticated electronic systems and controls in their conversions. While the intent is to simplify coach operations, often it creates more challenges than solutions. LifeStyle Coach allows you, the customer, to determine the level of sophistication and automation that meets your wants and needs. With comparable features, aesthetics, attention to detail and quality of construction, we can offer a truly custom coach with innovative design, flexibility in equipment, and customer driven decor and materials at a surprisingly affordable price point.

LifeStyle LS-II, and LS-III is all about choices, for those who cherish the luxury coach way of life. Whether it is an XL-II, H3-45, 2,3,4-slides or even no slides, you now have a choice! Let us at California Coach Company, LLC help make your dreams come true. Come see our luxurious LifeStyle LS-II show coach in our Southern California showroom, on display and available today!
